WHERE EVERY DROP **MEETS DESIGN**

At Gravity Bath, we believe a faucet is more than a fitting - it is the centrepiece of your bathroom, the first thing you touch every morning & the last every night. Our Bath Faucet collection is engineered to bring together three elements that rarely coexist: lasting durability, precision craftsmanship, & designs that make a statement.

From the bold industrial character of Senorita to the clean contemporary lines of Pendle & Pacemaker, every series in Part 1 has been purpose-built for the Indian home. Each faucet undergoes rigorous testing against India's hard water conditions - ensuring that what looks beautiful on day one continues to perform flawlessly for years.

Our range spans chrome, matt black, rose gold, gun grey, & brushed gold finishes, giving architects, interior designers, & homeowners the freedom to match any vision - classic, modern, or luxury.

CAST FROM STEEL FINISHED TO LAST A LIFETIME.

THE BASIN THAT OUTLASTS EVERYTHING ELSE IN YOUR BATHROOM.

Most basins are ceramic - beautiful until they chip, crack, or stain. Gravity's Stainless Steel Wash Basins are built from SS 304 grade steel, the same material used in surgical equipment and premium architectural hardware. They do not chip. They do not crack. And in a country where hard water, daily chemical exposure, and high-frequency use are the reality - they simply will not fail.

Every basin in this range is a vessel-mount design - placed above the counter top as a deliberate design statement, not hidden beneath it. The PVD coated finishes in Gold, Rose Gold, and Black are not paint or plating. They are molecularly bonded to the steel surface, rated to resist tarnish, discolouration, and the harshest cleaning agents without lifting or fading. Round or rectangular. Gold, Rose Gold, or Black. The choice is yours. The durability is non-negotiable.
